

Quick Start Guide

Powered Mult Box / Press Box

- 1 Connect one end of XLR cable to INPUT on front of mult box
- 2 Connect other end of XLR cable to MIC or LINE level audio input
- 3 Press or release MIC/LINE button according to your input type
- 4 Plug 1/8" AC jack into 24V DC IN slot and AC adapter into an electrical outlet
- 5 Connect up to 12 MIC level (and 2 LINE level) outputs into multibox
- 6 Power on mult box and adjust levels
