

Quick Start Guide

Shure Push to Talk Microphone

Initial Setup

- 1 Connect AC power adapter to mixer and plug into an electrical outlet
- 2 Connect microphone(s) to XLR input(s) on mixer
- 3 Connect external speakers (or other device) to LINE OUT on mixer

Getting Up and Running

- 4 Set mixer and speaker (or other device) levels to minimum volume
- 5 Power ON the mixer
- 6 Power ON the speakers
- 7 Turn ON **Phantom Power** on the mixer (this is usually a button or switch on the control panel)

Using the Microphone

- 8 Press the **PUSH** button to activate the microphone (light on base will turn **green**)
- 9 Press the **PUSH** button again to MUTE the microphone (light on base will turn off)
- 10 Adjust all levels accordingly
